Private Accommodation in Lisbon

-2017-

Dear student,

Finding a room in Lisbon upon arrival can be overwhelming. We suggest you start looking into housing immediately. For your convenience, we have put together a special selection of rooms and apartments for students. Search for the ones which are *closest* to campus, preferably with other students to facilitate your integration in everyday academic and social life. The *majority* of the rooms proposed are walking distance to University. The majority of the landlords have a reasonable command of the English language. This will minimize potential communications issues in the future.

Consider what is being offered, size, facilities and services, location and price. Establish direct contact, ask questions and inform them of your intention to reserve one of the rooms. Follow the procedures accordingly and **if you require VISA** request a **formal residence letter**, (you will probably have to pay 1 rent in advance to reserve a room. This is normal). You will need this letter in order to apply for the VISA, as you will be requested to provide your address in Lisbon.

Below you will find some rooming suggestions to assure that you find the most adequate accommodation for your housing needs and budget. They are classified in 3 categories, so that you can locate the property on google maps, you can see the rooms and photos of the rest of the residence.

Note that these are only *suggestions* and you are free to browse the internet and select any apartment or room you want, *but at your own risk*.
